# Caring for Creation

CONFERENCE

Interconnectedness

The day will begin with worship led by Bishop Lindsey Davis. The worship experience will affirm our place as part of God's wonderful and intricate creation. Nancy Sleeth will lead the plenary where she will talk of her family's spiritual awakening to the need for people of faith to get serious about the reality of negative global climate change and what we can do to affect it. Since radically changing their family's "American" lifestyle, Nancy and her husband Matthew have become activists to help bring awareness of the need to care for God's creation, and to bring information to help us take action. A variety of workshops will also be offered throughout the day with topics such as Creation Stewardship for Congregations, KAC Green Church Initiative, Teaching and Preaching Creation Care, Rain Barrel Construction, and Advocating for God's Creation. Nancy Sleeth is an activist and author of *Go Green, Save Green: A Simple Guide to Saving Time, Money, and God's Green Earth*.
