Many tribes and cultures talk of learning from the **7 Generations** before us in order to carry the wisdom to the 7 Generations ahead of us. The previous 7 Generations impact who we are and how we live today. What we learn, how we live, and what we do will impact the 7 Generations to come. The values encircled above are held by many of the tribes of Turtle Island and serve to give us tools to make a positive impact.

The Elders and Ancestors tell many stories about the coming of the **New Springtime or Coming Together Time**. Now, we are in the **Healing the Earth Time**. It is a time for learning about wisdom and shared values from our different faith traditions.

While we maintain our Woodlands traditions, we welcome those from other traditions as we work together to walk with integrity, becoming instruments of healing for Community and for the Earth.

We hope you will join these honored and gifted teachers for the **Healing the Earth Time**.

Our only rule: Reflect with Respect!
