Background Checks

For Church Employees and Volunteers

Did you know... an average of 30% of potential employees and volunteers misrepresent information about their past? It's not worth the risk. Over 35% of potential employees and volunteers have a criminal record, a bad driving record, bad credit history, or a fake Social Security Number – information they don't disclose.

PACT, in partnership with Trak-1 Technology and the Gallagher Religious Practice Group, is pleased to announce comprehensive background checks at a significantly reduced rate for the United Methodist community.
